(f) **Arbitrage:** Clients are prohibited from exploiting price discrepancies across different markets or platforms in a manner that undermines market integrity.

I. Risk Warning

Trading Foreign Exchange and Contracts for Difference (CFDs) is highly speculative and may not be suitable for all investors. The company offers trading on margin. The leverage created by trading on margin can work against you as well as for you, and losses can exceed your entire investment. Only invest with money you can afford to lose and ensure that you fully understand the risks involved. Seek independent advice if necessary and review our Risk Disclosure and Privacy Disclosure before opening an account. CFDs are complex instruments and come with a high risk of losing money rapidly due to leverage.
